

FACULTY OF MECHANICAL ENGINEERING AND DESIGN

Name of the department	Name of the position	Part of FTE	Study field	Science field	Required competences and experience
Department of Production Engineering	Professor	1	E10 Production Engineering	T009 Mechanical Engineering	<p>Pedagogical experience: have experience of teaching the subjects in the engineering study field related to the mechatronic technologies.</p> <p>Experience of giving lectures in the English language: have experience of giving lectures in the English language.</p> <p>Experience of research activities: have experience of conducting and supervising research in the mechatronic systems research field.</p>
Department of Production Engineering	Associate Professor	1	E10 Production Engineering	T009 Mechanical Engineering	<p>Pedagogical experience: have experience of teaching the subjects in the engineering study field related to the robotic systems.</p> <p>Experience of giving lectures in the English language: have experience of teaching in the English language.</p> <p>Experience of research activities: have experience of conducting research in the mechatronic systems research field.</p>
Department of Production Engineering	Lecturer	1	E10 Production Engineering	T009 Mechanical Engineering	<p>Pedagogical experience: have experience of teaching the subjects in the engineering study field related to the mechatronic technologies.</p> <p>Experience of giving lectures in the English language: have experience of teaching in the English language.</p>
Department of Mechanical Engineering	Associate Professor	0,25	E06, Mechanical Engineering	T009 Mechanical Engineering	<p>Pedagogical experience: have pedagogical work experience in the field of mechanical engineering.</p> <p>Experience of research activities: have research work experience in the field of mechanical engineering.</p> <p>Additionally required experience and competences: have experience of preparing and implementing the Lithuanian and foreign research projects and outsourced works ordered by the entities.</p>
Department of Transport Engineering	Chief Scientific Employee	0,5	E12 Transportation Engineering	T003 Transportation Engineering	<p>Experience of giving lectures in the English language: assessment of the English language corresponding at least to level C1;</p> <p>Experience of research activities: experience of preparing the national (Research Council of Lithuania) and international (H2020, Interreg) proposals for financing.</p> <p>Additionally required experience and competences: experience of participating in the international research and innovation programmes (such as COST, etc.); experience of preparing the scientists (participation in the activities of the Doctoral Committee, supervision of Doctoral students).</p>
Department of Transport Engineering	Lecturer	1	E12 Transportation Engineering	T003 Transportation Engineering	<p>Experience of supervision of the students' theses: supervision of the theses of the first and second cycle students.</p> <p>Experience of research activities: research and studies activities related to the organisation of traffic flows.</p> <p>Knowledge of specific technologies: experience of working with the specialised packages PTV VISUM, VISSIM, Matlab; experience of modelling and programming using C++, Java.</p> <p>Additionally required experience and competences: experience of improvement of study programmes and organisation of studies. Experience of organisation of scientific events.</p>
Department of Thermal and Nuclear Energy	Lecturer	1	E13, Energy Engineering	T006 Energy and Thermal Engineering	<p>Pedagogical experience: in the thermal energy modules provided in the energy engineering studies.</p> <p>Experience of supervision of the students' theses: experience of supervision of the students' theses.</p>
