Research works	Author's contribution $\geq 0.25 / \geq 0.5$	Author's contribution $\geq 0.5 / \geq 1$	Author's contribution $\geq 0.75 / \geq 1.5$	Author's contribution $\geq 1.25 / \geq 2.5$	Author's contribution $\geq 1.75 / \geq 3.5$	Author's contribution $\geq 2 / \geq 4$	Author's contribution $\geq 2.25 / \geq 4.5$	Author's contribution $\geq 2.5 / \geq 5$

The following is evaluated (cumulative):

- ✓ In the fields of natural sciences, technology, medicine and health sciences: author's contributions to articles published in scientific journals that are in the first, second or third quartile (Q1-Q3) of the relevant journal group in the WoS SCIE database.
- ✓ In the fields of humanities and social sciences, the author's contribution to articles published in journals that are in the first, second or third quartile (Q1-Q3) of their respective journal group in the WoS SSCI or Scopus database. If a journal is in both WoS SSCI and Scopus, the data from the database in which the journal is in the higher quartile is used for the evaluation.
- ✓ If the article is prepared in cooperation with foreign co-authors, the University employee's contribution is increased by a factor of 1.4.
- ✓ In the fields of arts, according to the nature of the artistic expression: music - a work of art is published by international publishing houses, sound and video recording studios; activities in architecture - implemented project abroad for a large urban complex, territorial planning, architectural complex or public building; design - published or presented complex visual style or complex design of objects of broad or prestigious international recognition at events abroad or for foreign clients - the author's contribution is equal to 1.
- ✓ 2 quires of personal contribution to scientific monographs or parts of thereof published by internationally recognised scientific publishing houses are equivalent to the author's contribution equal to 1.

- ✓ 4 quires of personal contribution to monographs or parts thereof published in the Lithuanian language (in the fields of humanities and social sciences) are equivalent to the author's contribution equal to 1.
- ✓ Author's contribution to patents issued by the European Patent Office, the US Patent and Trademark Office or the patent offices of Japan, China, and South Korea.
