

# ESPA

## The Next Generation of International Talent

**ESPA**  
The Next Generation of  
International Talent

# Who are we?

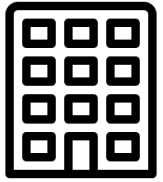

We are a Bath based company  
With 10 years of experience  
**Free of charge** to students

**Looking for the next generation of international talent**

# Brexit

- The UK is still open for students and internships
- Due to new travel regulations students need to obtain a **Certificate of Sponsorship** and a **Visa**
- The UK is still an international partner country for the Erasmus+ grant

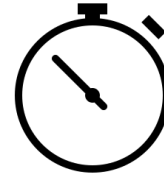

# Certificate of Sponsorship

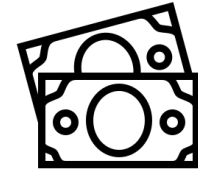

Fragomen  
& Bunac

Proof of enrolment

72 hours

500 €

# The Visa process

- The appropriate visa for interns coming to the UK for an internship is a Government Authorised Exchange visa (Temporary Work)
- The visa costs are **314€** for biometric passport holders.
- Non-biometric passport holders need to book a TLS appointment first → this costs 64€ and may take a few weeks longer

# The Visa process

- Candidates coming on the 'research' route are treated as a [standard visitor](#). They can come without a visa and stay for up to **6 months** for a few reasons. Therefore, there isn't a visa for research visits.
- We recommend the student to get a letter from the higher education facility they are going to, confirming they are going there on a research placement

# How to apply as a student

1. Register on our website
2. Book a call with our talent team
3. Send in a cover letter for matching vacancies
4. Get interviewed by the host company
5. Accept the offer!
6. Apply for a CoS and Visa with us

**→ Come to the UK and start your internship!**
